

Customer Site

Customer Site is the application of **Arcadia Suite** which allows its clients to know their consumptions and to perform different administrative operations, as well as controlling or managing the risk of their vehicles.

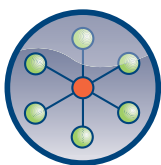

Customer Site is **especially designed** to link it with the corporate page of any entity.

To Highlight

You can see your **real time** consumptions, with the detail of all the operations, and graphically visualise the location and the detail of the supplies.

With **Customer Site** it is possible to consult the balance of your cards, apart from managing the risk of the same.

Modify all your client data in a quick and easy way.

Customer Site
