

# OpenCard Platform

**OpenCard.** Powerful WEB platform of **Arcadia Suite** for the management of clients with credit sale and fleets.

It allows working with different identification supports, different credit programs, prepayment and postpayment, and the identification of vehicles within each client and corporate name.

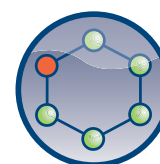

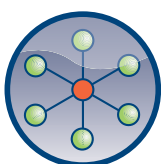

The transactions are made in real time, always keeping the balances updated.

## To Highlight

**OpenCard** allows you to **know and manage** the risk of your clients in real time. It has an **authorising centre** with the function of approving or refusing supplies, using cards or tags, **guaranteeing the safety** of your transactions, and thus avoiding any type of fraud.

It can establish limits for refuellings, and it can configure **validation rules** at different levels.

The management of the clients with credit sale and fleets was never so complete and safe.

# Open Card Platform
